Java Developer

Experienced Java Developer with 5 years of hands-on expertise, proficient in Java, Spring Boot, Microservices, RESTful, AWS, PostgreSQL, and Git. Demonstrated track record of overcoming challenges and consistently delivering impactful results. Let's collaborate to create something amazing.

WORK EXPERIENCE

Full Stack Engineer
Infinidata • 05/2022 – 01/2023

- Refactored monolithic app into serverless functions with AWS Lambda, cutting costs by 30% and boosting performance by 50%.
- Utilized AWS API Gateway for RESTful API exposure, enhancing integration efficiency by 20%.
- Designed and Implemented most of the user interfaces using Flutter and React

Java BackEnd Engineer
Media360 • 12/2020 – 03/2022

- Designed and developed microservices with Spring Boot, adhering to best practices to ensure the creation of modular and independent components.
- Improved system performance by 50% by optimizing AWS infrastructure, resulting in significant cost savings for the business.
- Incorporated Maven for streamlined build and deployment processes, automating the workflow efficiently

Java Full Stack Engineer
Department Of Telemedicine Of The Ministry Of Health • 03/2020 – 10/2020

- Developed a new feature using Java and Angular that improved page load time by 50%, resulting in increased user engagement.
- Utilized Hibernate and SpringData to optimize data access, leading to a 25% decrease in database query execution times and increased efficiency
- Improved user experience and increased user engagement by designing and implementing interfaces for 3 portals: admin, nurse, and patient.

Junior Java Developer
Amana-SI • 11/2017 – 02/2020

- Created RESTful APIs by utilizing Java, Spring Boot, and PostgreSQL
- Developed cutting-edge news blog, reaching 100k monthly visitors and earning top industry recognition.
- Created and maintained comprehensive documentation for Java codebase, facilitating knowledge transfer and onboarding of new team members.
- Collaborated with teams to gather requirements and design solutions, resulting in seamless integration with existing systems.

CERTIFICATIONS

AWS Solutions Architect - Associate • 12/2023
Amazon

Nanodegree Full Stack Java Script Developer • 02/2023
Udacity

EDUCATION

Master Of Science in Computer Science
Maharishi International University • Fairfield, Iowa, USA • GPA: 3.84

Master's In Information System
Nouakchott University • GPA: 3.9

Bachelors in Computer science (IIDA)
Nouakchott University • Nouakchott, Mauritania • GPA: 3.7
Specialization : (IIDA) Intranet And Internet Development And Administration

SKILLS

Languages: Java, JavaScript
Web: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript
Frameworks: Spring (Mvc, Data, Security, Boot, Test), Angular, Flutter
Databases: PostgreSQL, MySQL, DynamoDB
SDLC: Agile/scrum, Testing, Documentation
Tools: JIRA, Trello, Intellij, Android studio, Postman, startUML, GitHub, Vscode
AWS services: S3, Lambda, API Getway, DynamoDB, IAM, Amplify, Cognito, EC2
